

## Taxpayer Identification Number (TIN) Matching Re-engineering Frequently Asked Questions (FAQs)

### **When will the changes to TIN Matching be effective?**

September 2, 2013

### **Why is TIN Matching being re-engineered?**

TIN Matching is being re-engineered to improve processing time and increase system availability.

### **Are there any other enhancements to TIN Matching?**

Yes, there are two enhancements:

- Bulk submissions will receive an acknowledgement page with a tracking number.
- We enhanced the name matching logic.

### **Will the improvements change the look and feel or functionality of the TIN Matching product?**

There will be cosmetic changes to the application but the functionality will remain the same.

### **Where can I get more information on TIN Matching?**

- Online tutorials are available on the tool bar when you log into e-services.
- Publication 2108A on IRS.Gov.
- The e-help Desk is available at 866-255-0654 to assist users.
