FY25 7% Cap Provision – *For districts who would experience an increase in fees owed (FY24 vs FY25) for the individual cost of ProgressBook Suite applications or Samegoal, HCC will apply a 7% cap to the increased amount a district would owe in fees for these services/subscriptions. This provision is limited to districts whose increase is related to the elimination of "Suite Pricing" that has existed in prior years. This provision does not apply to districts whose increases are related to added services and/or increased enrollment.*
